Ibn al-Qayyim states that there is no more confusion concerning the meanings of the words used for 'Khatrim"a, which have been brought forward by other authors such as Ibn Hanbal and others for the sake of confusing the true meaning of Muqallillah in Muqallillah, although, no doubt, they are wrong. As far as these words being used for Khatrimaz, they do refer to this particular group of people, not to those who believe and practise the Khatrimaz who are not followers of Al-Qadr (i.e. those who have not returned) as Ibn Hanbal had stated: There is no difference in this category and this is the reason why they say (Al-Mumtair, pp. 362 n. 13, quoted in 'Ikhwan Qazwath al-Mujahadeen' vol. 1 p. 13); [1] 'Ikhwan Qazwath al-Mujahadeen, vol. 1 p. 14]. Imam al-Qurazi states that all scholars agree unanimously that Khatrimaz refer back to the Prophet of Islam (pbuh) and to certain other people who were given the name 'Katrimaz'. This could be because there is a consensus between the different groups who hold this belief that Khatrimaz refer back to the Prophet of Islam, and other people who are known for performing Hajj (takbir). For instance, Imam Abu Sa'id al-Din al-Qurashi wrote on 'Furqan' about this (Al-Munafiqeen vol. 12, 3, p. 461; vol. 13, 2, p. 1082). In addition to this consensus, Imam Malik narrated from al-Bukhaari that the Messenger of Allah (may peace be upon him) said: I never considered that the followers of a people were better than the Companions of their Messenger as there is none of them better than he is and there is none of them better than he was to them. Umayyad rule in Iraq In the late 14th and early 15th centuries Arab Muslims were expanding in Syria and neighboring regions as Western powers had been pushing westward since the Crusades of the 11th and 12th centuries. Al-Hutham took advantage of this opportunity to develop his new military and economic empire. Huzayyabite Turks, who ruled the region at that time, were a great enemy to the newly independent Muslims and were often defeated by Mu'awiya and Nujaba (two of Mu'awiya's sons) in the final years of the Abbasid caliphate. They are sometimes called the last great invaders to confront Islam and the Arabs. A great many of the Turks died and a considerable number of their lives were lost during the Arab Revolt in 1457.

I was going to visit India for four weeks and then decide which part I wanted to take with me. So with only one vacation day left before our trip started, I decided on the two-week vacation. The main goal for these four weeks is to get away with just two of our favorite spots. After three weeks of a busy schedule of visiting India each day, we all realized it wasn't working out and decided it would be fun to just go for a weekend trip.. We were inspired by visiting new countries as part of our recent book tour. I had a great time, saw beautiful places, and felt inspired to learn more about Indian culture. That is my favorite part of having a book tour.
